ARREST 9 MEN FOR RIOTING IN KENTUCKY TOWN ON WAR PROFITS

Trouble is Outgrowth of Clash Between Troops and Strikers

TWO TOWNS UNDER GUARD OF KENTUCKY GUARDSMEN

Several Hundred Shots Exchanged By Soldiers and Striking Miners

(ASSOCIATED PRESS TELEGRAM)
Madisonville, Ky., Aug. 14.—Nine men are in the custody of troops at Providence, search has been instituted for 30 others and the mining towns of Clay and Providence are under modified forms of martial law, as the outgrowth of a recent clash between striking miners and troops at Clay. News of these developments reached here today.

The nine men under arrest are charged with "conspiring to oppose by force the authority of the United States." It was alleged they were members of a band which fruitlessly exchanged several hundred shots with soldiers and mine guards during a disturbance at the Diamond Mine.

Apparently the soldiers have taken charge of the town to reduce to a minimum chances of disorder which they believe might result after the arrests.

The men were taken into custody Sunday night without any show of resistance and were confined in a stockade at Providence pending further orders for their disposal.

The strike in western Kentucky, to which the outbreak at Clay was attributed, has been called off.

GEN. WOOD LOSES OUT IN CAMPAIGN FOR GENERALSHIP

(ASSOCIATED PRESS TELEGRAM)
Washington, Aug. 14.—Nominations of more than 200 new major generals and brigadier generals who will hold commands in the new army were sent to the Senate today by President Wilson. They include all the national guard general officers.

The following 37 major generals were nominated:

William A. Mann, James Parker, Eben Swift, Edward H. Plumb, Edwin F. Glenn, A. P. Blockson, Edwin A. Greene, Francis H. French, Charles J. Bailey, George Bell, Jr., Frederick S. Strong, Harry F. Hodges, Clarence P. Townsley, Edwin St. J. Greble, Francis J. Kerman, John P. Biddle, George T. Bartlett, Henry C. Hodges, Jr., Joseph T. Dickman, Charles G. Treat, Adelbert Cronkhite, Henry F. Allen, William H. Sage, Clarence R. Edwards, John W. Ruckman, Chase W. Kennedy, Omar Bundy, Harry C. Hale, Richard M. Blatchford, Samuel D. Sturgis, David C. Shanks, William M. Wright, Robert L. Bullard, Joseph E. Kuhn and Peyton C. March, all of the regular army, and Major General Charles M. Clement, of the Pennsylvania National Guard, and Major General John F. O'Ryan of the New York National Guard.

GRN. WOOD NOT INCLUDED.
Columbus, O., Aug. 14.—The campaign of his friends to have Adjutant General George H. Wood of Ohio appointed major general of the Ohio National Guard was considered to have failed, when it became known here today that General Wood's name was not included in the list of nominations for major general sent to the Senate today by President Wilson.

As for the men nominated for major general by the president are regular army officers, with the exception of two, it was considered probable by army men here today, that if the Ohio guard is to be made into a division, it probably would be commanded by a regular army officer and not by an Ohio man.

Colonel Julius A. Penn, of the regular army, who has been stationed in Columbus for the past several weeks as chief mustering officer of the Ohio National Guard, was among the regular army officers nominated by President Wilson to be a brigadier general.

ADVENTISTS' CAMP TO OPEN AT BELLEFONTAINE

Bellefontaine, Aug. 14.—The Seventh-Day Adventists of Ohio will hold their annual conference here for 10 days, beginning Aug. 16. A camp is being established at the fair grounds and 1200 members of the sect, who belong to what is known as the Columbia Union conference, will be in camp. The president of the Ohio organization is E. K. Slade of Mt. Vernon. The secretary-treasurer is H. D. Dolton, also of Mt. Vernon.

WOMEN MAY GET VOTE.
Columbus, O., Aug. 14.—Columbus voters are deciding the question to-day whether or not the women shall have the right to vote for municipal officers, and while a very small vote is expected to be polled during the day, the contest is a heated one.

LAFOLLETTE ASKS FOR HEAVIER TAX ON WAR PROFITS

Minority Report On Tax Bill Says Burden Rests On Common People

WILL OFFER SUBSTITUTE UNLESS BILL IS AMENDED

Cites England As Example of Right Method of Taxing Industries

(ASSOCIATED PRESS TELEGRAM)
Washington, Aug. 14.—A minority report of the Senate finance committee on the war tax bill was presented to the Senate today by Senator LaFollette with the concurrence of Senators Gore and Thomas, recommending that war profits and big incomes be utilized as the principal sources of taxation in providing funds for the country's war needs. Contrary to expectations, Senator LaFollette did not present a substitute for the pending war tax bill. He announced, however, that, unless the Senate adopted amendments to be offered by himself and his associates, a substitute would be offered.

The minority report charges that the bill as revised by the majority makes but palpably inadequate provisions for raising revenue needed for financing the war through the next fiscal year and that the onus of taxation has been placed upon those least able to bear it.

England has taxed her war profits 80 per cent without impairing her great industries, declared Senator LaFollette. Instead, her wealthy classes "were never in receipt of large incomes nor were her largest business concerns more flourishing." "Heavy taxes," he said, "could be levied on American corporations without any fear of affecting capital or crippling industry."

"From the income tax and the war profits tax," states the report, "there can be raised without subjecting the country to serious financial strain and without depriving the wealthy even the luxuries of life, more than double the amount proposed in the pending bill."

If Congress were to adopt the British rate of 80 per cent on war profits, Senator LaFollette said, more than a quarter billions of dollars would be realized in a single year from this source. Seventy percent would yield \$2,021,000,000, 60 percent \$1,732,500,000, 50 percent \$1,432,700,000, 40 percent \$1,155,100,000, and 30 percent \$866,250,000, according to estimates furnished by the treasury department.

In urging that the income tax scale be increased to lighten the (Continued on Page 2, Col. 1.)

ALLIES WILL GET ANOTHER LOAN OF THREE BILLIONS

(ASSOCIATED PRESS TELEGRAM)
Washington, Aug. 14.—Congress soon will be asked to authorize another loan of between \$3,000,000,000 and \$4,000,000,000 to the allies.

Secretary McAdoo and Chairman Kitchen of the ways and means committee agreed on this today and also agreed upon the desirability of raising a larger sum than \$2,000,000,000 for war purposes by taxation. Congress probably will be called upon at the December session to revise the war revenue bill now before the Senate, increasing the sum to be obtained through taxation.

CHINA DECLARES WAR ON GERMANY

London, Aug. 14.—Reuters' latest has been officially informed that China has declared war upon Germany and Austria-Hungary, the declaration dating from 10 o'clock this morning.

RECEIVED IN WASHINGTON.

(ASSOCIATED PRESS TELEGRAM)
Washington, Aug. 14.—Official notice of China's declaration of war on Germany and Austria-Hungary was received today at the Chinese legation in cable dispatches from Peking.

BATTLE FRONTS QUIET; ONLY RAIDING OPERATIONS

New York, Aug. 14.—Few changes on the battle fronts are reported in today's dispatches. In France and Belgium, although sharp local engagements are underway, there has been no renewal of fighting on a large scale. The Paris war office reports that the German lines near Rheims were penetrated in two places by French reconnoitering parties.

German raiding parties in the Champagne were driven back.

A British destroyer has been sunk by a mine in the North Sea. The captain, two officers and 43 men were saved.

NEWARK BOYS IN 4TH OHIO INFANTRY WILL SOON SEE SERVICE ALONG FRENCH FRONT

Some Newark boys will see prompt service in France, according to announcement made by the war department at Washington this morning. Those Newark boys who enlisted in Co. B, Fourth Ohio Infantry, and in Co. G, Fourth Ohio Infantry, have been assigned with their regiment to the first division of National Guard troops which is slated for an early trip to France.

Most of these companies have already left Columbus for "Somewhere in America." The destination can only be guessed at and the war department has asked the newspapers to refrain from discussing the probable destination, the place of mobilization or the probable date of departure of the troops.

In Co. G are a number of Newark boys who enlisted during the border trouble a year ago. In Co. B, some 30 or more enlisted here in the recruiting campaign conducted by Lieutenant Koeppl now Captain Koeppl.

As far as can be learned, the Newark boys who enlisted in the ammunition and supply train service are not included in the troop-movement. Relatives of none of the Newark boys have been advised whether their boys have left Columbus. Battery C, Ohio Field Artillery, is not included in the Ohio troops assigned to this new division for service in France.

ARE ALREADY GONE.

(ASSOCIATED PRESS TELEGRAM)

Columbus, O., Aug. 14.—Men of the Fourth Regiment, Ohio National Guard, will be the first organized body of Ohio troops to see active service in France.

An official statement by the war department at Washington today made it known that a full division of national guard troops, composed of units from 26 states and the District of Columbia, is being organized for immediate service in Europe. The Fourth Regiment is the only Ohio unit to be included in the division.

Local companies of the Fourth Regiment left Columbus hurriedly yesterday for "some place in America," but it was not known where they were going. Even the members of the regiment did not know their destination. Orders for their movement were received at midnight Sunday and by noon yesterday most of the troops had left.

Colonel Julius A. Penn, of the regular army, who is chief mustering officer for the Ohio guard, today refused to comment on the troop movement, but it became known that the Fourth Regiment was fully equipped and ready for service.

The Fourth Regiment is composed of central Ohio troops and is under command of Colonel Benson W. Hough, of Delaware, who was adjutant general of Ohio under the administration of Governor Frank B. Willis. Colonel Hough resigned his position as adjutant general last summer to go at the head of the Fourth Regiment to the Mexican border.

There was no information today as to where the Ohio troops would go to join other units of the national guard division which is to go abroad.

SPAIN DECLARES MARTIAL LAW OVER ENTIRE COUNTRY

(ASSOCIATED PRESS TELEGRAM)
Madrid, Aug. 14.—The whole of Spain has been placed under martial law following disorders resulting from the general strike which is spreading. This decision was reached at a meeting of the cabinet which devoted its entire time to a consideration of the strike.

The strike which was begun by the railroad employees has even affected the newspapers here and only those who have non-unionist staffs will appear tonight. They have received assurances from the government that they will be protected. At noon yesterday the capital was quiet. A majority of the workmen wish to work in peace, only a minority seeks to promote disorder.

New York, Aug. 14.—Few changes on the battle fronts are reported in today's dispatches. In France and Belgium, although sharp local engagements are underway, there has been no renewal of fighting on a large scale. REDUCED ARMAMENTS, AND NO TRADE FIGHT AFTER WAR, POPE'S PLAN

Pontiff Sends Peace Proposals to All Belligerent Nations Urging Early Negotiations For Peace to Save Europe From Certain Destruction

SHOULD BE NO REPARATION EXCEPT RETURN TERRITORY

Proposals Have Reached Representatives In Rome But Have Not Been Transmitted to Various Governments—Says Europe Headed For Destruction Unless Warring Nations Are Willing to Cease a Suicidal War—Entente Diplomats Declare Proposal is Suspiciously German and Believes Kaiser is Behind It, Acting Through Austrian Influence at the Vatican

(ASSOCIATED PRESS TELEGRAM)
Rome, Aug. 14.—Peace proposals made by Pope Benedict have been delivered to all the belligerent governments.

The Pope suggests restoration of Belgium, Serbia and Rumania and peaceful solution of the problems of Alsace-Lorraine, Trent, Triest and Flanders, according to reports received from Vatican sources. It is expected the proposals will be published today by the Vatican.

URGES NO TRADE STRUGGLE AFTER WAR

(ASSOCIATED PRESS TELEGRAM)
Washington, Aug. 14.—An unofficial outline of Pope Benedict's peace proposals received here, disclosed that the pontiff includes some of the principles of world peace for which President Wilson has declared.

Among the Pope's proposals are reduction of armaments, freedom of the seas, and that there shall be no retaliatory struggle after the war for world commercial supremacy. These are regarded as the foundation stones of the Pope's plan.

The Pope's proposal declares that the injuries to all belligerents have been so great there should be no thought of reparation except for the return of territory.

The Pope's proposals, which already have been delivered to the resident ambassadors and ministers of the warring powers in Rome, is quite long, making in print something more than a column of large newspaper type. Although special efforts are being made to facilitate its transmission to the United States this may not be effected for at least a day or two.

Meanwhile, however, an accurate account of the principal points of the Pope's communication is in the hands of the government here and already has received thoughtful consideration.

In eloquent language the pontiff described the terrible conditions existing in Europe, which he declares is headed for destruction unless the belligerents are willing to listen to the appeals of disinterested friends to cease a suicidal war. Such conditions, the pope feels, ably justify him in taking the present opportunity to suggest what may be, he hopes, at least a foundation upon which peace negotiations may be initiated.

At best, Pope Benedict's proposals are only suggested as rough basis for still negotiations, and he realizes that the details in all their complexity must be worked out patiently and in a spirit of conciliation by the belligerents themselves.

Unqualified approval of President Wilson's plan for the avoidance of future wars by some form of international organization which shall be behind it the necessary power to enforce its judgments, is given by Pope Benedict, who declares that along with such a splendid project must go an effective arrangement for reduction of armaments to a point just sufficient for defensive purposes or to carry out the mandates of the world court.

It is inconceivable, the pope holds, that any permanent peace can be maintained unless the various people are willing to gather in an amity founded upon a recognition of national rights.

Any attempt to prevent free economic action between the belligerents, the pope points out, would be disastrous; therefore, he says, there must be freedom of the seas in all that the term applies. The pontiff declares that so extensive has been the injury to all the belligerents that there can be no thought now of either indemnity or reparation.

In a spirit of conciliation and justice, he says, all the belligerents must submit to accept the losses they have sustained except in the matter of territory and beside these questions of indemnity and reparation the pope declares that there must be no continuation of the war by an economic struggle for supremacy thereat, which would be purely evil.

This refers directly to the so-called Paris economic conference which was followed by one in Vienna where the effort was made to bind the belligerents on either side after the war to have practical no commercial relations with their late enemies.

On the important question of the disposition of occupied territory and the territorial ambitions of the belligerents the pope, by way of preference, admits that special cases might justify special consideration and still (Continued on Page 2, Col. 4)

GERMANY KILLS 9,748 PEOPLE ON BRITISH VESSELS

(ASSOCIATED PRESS TELEGRAM)
London, Aug. 14.—It was announced today in the House of Commons that 9,748 lives were lost on British merchantmen from the opening of the war to June 30, 1917, as a result of enemy action. Of these, 5,282 were passengers, the remainder being officers or seamen.

MINING TOWN BURNS.

(ASSOCIATED PRESS TELEGRAM)

Baker, Ore., Aug. 14.—Fire last night destroyed the business section of Sumpter, a mining town near here, causing a loss estimated between \$750,000 and \$1,000,000, and rendering several hundred persons homeless. Two persons were burned to death. Food and tents were sent from here today.

The diplomatic representative of one neutral European country said that in his opinion while the central powers might be willing to make peace on the terms outlined in the pope's communication, Germany would never be willing to relinquish Alsace-Lorraine while she remained (Continued on Page 2, Col. 4)

100 ACCEPTED BY DRAFT BOARD; THREE SLACKERS

Tabulation by the draft board of claims for exemption filed by eligibles who appeared for examination show that none of the causes were overlooked. The city and township quota has not been filled and an additional 130 men will be called beginning next Monday to secure the men needed for the quota.

An even hundred men were given their chance to do their "bit" by service in the new army. The exempted men numbered 225. Part of these men will be recalled for examination or re-investigation of their claims for exemption. New rulings regarding exemptions are being received almost daily at the offices of the board.

Of those exempted, 103 were physically unfit. Some of these will be ordered up later for investigation as to weight and height.

Two notices were returned to the draft board. The men at the time of the registration either gave wrong addresses or else have moved without giving notice to the proper authorities.

Three men failed to show up for examination and when apprehended faced sentence of one year in prison and then will be forced to enter the army, unless physically unfit.

Two who received commissions at Fort Benjamin Harrison were included in the first draft. They were accepted.

There were 15 who were relieved from service because of being aliens. In the large cities the men who claim exemption on this ground are turned over to the consuls for service in their native country.

Only one claimed exemption on the claim of being an ordained minister.

The draft board still has 30 men to pass upon. These were held for investigation and will be acted upon tomorrow.

Families whose only support was the man within the draft caused 90 men being rejected from service.

One man claimed exemption on the grounds of having a child to support.

Twenty-four had wives to provide for and two had infirm parents to maintain.

In finishing their work the local draft board exempted the following: Lewis George Knowst, Jerry Steckelbouck, Grover Cleveland Snelling, Worth Logan Armentrout, Thomas Givens, Archer Leroy Fisher. These two were accepted: Tod Beggs, Paul Conn.

LAFOLLETTE ASKS FOR HEAVIER TAX ON WAR PROFITS

(Continued From Page 1)

burden borne by the laborious classes, figures were cited indicating that wages have increased only 18 percent while the necessities of life have advanced 85 percent.

"It is monstrously unfair," said Senator Lafollette, "to tax the everyday necessities of the average man or woman to pay the expenses of the war in addition to commanding their services, and the lives of many of them and their children, so long as the swollen and abnormal war profits are not taken—profits which the war has created and which will disappear as soon as the war ends. Every dollar of the above profits can be taken and still enormous peace time profits of these and other great corporations will not be touched. Every stockholder would

still receive his handsome peace time dividends, every officer his princely salary."

In support of the minority contention that the majority estimates are grossly insufficient to carry the government through the next fiscal year, Senator Lafollette declares the estimated expenditures probably will exceed the estimated receipts by \$9,402,307,000 without taking into consideration the additional billions probably to be furnished the allies. The majority report provided for the raising of only \$1,943,458,000. Considering the loans that probably will be required by the allies, the American people will be called upon during the fiscal year to raise at least \$14,000,000,000, he declared.

The minority members object to the proposed bond issue of billions of dollars, contending that this burden will become most severe at the end of the war when capital will be needed in the work of rehabilitation in both America and in Europe.

DRAFT BOARD HAS NO MODIFICATION OF FIRST ORDERS

A large number of inquiries have come to the local board upon the subject of exemptions, and the board authorizes the statement to be made that much confusion arises by reason of current newspaper reports of modifications of the original instructions of the president upon the subject of exemptions.

These reports current in newspapers have never been received by the local board officially from any source.

As the law now stands all married men making a claim for exemptions are entitled thereto if they support their wives, provided the wife has in her own right no independent income. The law specifically says gifts do not count as income for support.

The rules also provided the husband has no separate income to support his wife outside his labor. If his labor only supports the wife he is entitled to exemptions, whether that labor is physical or mental.

The report that if parents of husbands or wifes are willing to support the wife the board can refuse exemptions to the husband is in no sense true.

The rules make no distinction with reference to the time the man claiming exemptions was married. Yet if he marries after he is called it is impossible he would not be entitled to exemptions.

The board being satisfied that the facts stated in the affidavit are true has no discretion to refuse an exemption, because the board cannot set aside and nullify regulations made by the president. The board has still under investigation claims for exemptions not passed upon.

Another feature is not generally understood with regard to the physical examination by the doctors. When a man is rejected by the examining doctor he must be re-examined by another doctor, and if on second examination the man is passed then he is accepted. Both doctors must concur in a rejection in order to reject. If they differ the man is accepted.

There is nothing in the regulation to the effect that the financial standing of parents of the husband or wife is a factor to be considered in allowing exemption to the husband. It is easy to see how such a factor in the case would involve endless investigation and much uncertainty.

LEWIS HELD FOR CHECK FORGERY; MADE DASH FOR LIBERTY

Adison Lewis, alias Charles W. Golding, alias Charles Baker, check forger, did a sprinting dash about the square and Arcade Tuesday morning, with the employees of the Licking County Bank running second.

The man who is of fair appearance, went to the Licking County bank Tuesday morning, presenting a check for \$100 to Arthur Hayes to be cashed. The check was made out to Charles Baker and was signed by Irene Jones. The teller suspecting the signature told him to wait and he left to compare it with the signature of Mr. Jones. Other employees were told to watch the man, who waited a second and then lastly left the bank followed by three of the employees. They "ducked" through the alleys paralleling the Arcade and a "phone call" was sent to the patrol station. Chief Sheridan and Officers Harbaugh and Donnelly responding. The chief captured him just as he stepped out of the Arcade on Fourth street. He was armed with a revolver.

When questioned by the officers he said he lived three miles south of Zanesville, but inquiry showed that he had been employed for the past week at the Elmwood Jones livery stable. Another employee there quit work yesterday stating that Baker, who had given the name of Charles Golding to Mr. Jones, was a dangerous man and that his name was really Lewis, and that he had served 15 years in the Ohio penitentiary on charges of burglary and horse stealing.

Chief Sheridan is making an effort to identify the man today.

STATE FAIR PROMISES

TO BE BEST EVER HELD

Columbus, O., Aug. 14.—The first of the thousands of troops quartered at the state fair grounds left Columbus for "somewhere in the United States." Some of them it is known have been sent to the camp at Montgomery, Ala. Others have gone to Camp Perry, and within a few days all will have left the fair grounds and be located in their new training camps. Just as fast as the troops are leaving a force of men begin work putting the buildings in shape for the state fair to be held August 27-31. Secretary Shaw has arranged to have all the exhibit halls in readiness within another week for the exhibits which will begin to come in. But the buildings will be far too small to house all the exhibits, and large tents are to be erected in various portions of the grounds. Never in the history of the state has there been such a demand for space, and the fair this year will break all records in not only the amount of space occupied but by the number of exhibitors.

**WANT GERMAN COLONIES
RESTORED.**

(ASSOCIATED PRESS TELEGRAM)
London, Aug. 11.—There has been great diplomatic activity recently at the papal secretariat, numerous diplomats having long interviews with Cardinal Gasparri (papal secretary of state), the Rome correspondent of the Exchange Telegraph company cable. "I am able to announce that the holy see has addressed a note to belligerents and neutrals. The note makes a new and formal appeal for peace. It invites the belligerents to state their conditions in concrete terms so as to facilitate a preliminary understanding."

"This important document has been communicated to the Italian government through the Spanish ambassador. The Observatore Romano, the official vatican organ, will publish the text tonight."

The outline of the vatican's peace proposals received here demands the restoration of all German colonies to Germany.

Summed up, the proposals are for a restoration of the status quo ante bellum with all questions as to the readjustment of frontiers to be left to undefined "subsequent negotiations."

COME FROM GERMANS.

(ASSOCIATED PRESS TELEGRAM)
London, Aug. 14.—"These so-called peace terms have a distinct German flavor." This reply was given in an authoritative quarter in London today in reply to a question by the Associated Press in regard to the vatican's proposals.

The opinion was expressed that the inspiration for the peace-move probably emanated from Austria and was in the nature of a trial balloon, as a prelude to more definite propositions from the central powers to the allies.

Some of them it is known have been sent to the camp at Montgomery, Ala. Others have gone to Camp Perry, and within a few days all will have left the fair grounds and be located in their new training camps. Just as fast as the troops are leaving a force of men begin work putting the buildings in shape for the state fair to be held August 27-31. Secretary Shaw has arranged to have all the exhibit halls in readiness within another week for the exhibits which will begin to come in. But the buildings will be far too small to house all the exhibits, and large tents are to be erected in various portions of the grounds. Never in the history of the state has there been such a demand for space, and the fair this year will break all records in not only the amount of space occupied but by the number of exhibitors.

KAISER'S PERSONAL MESSAGE TO WILSON EXCUSED BELGIAN CRIME AS STRATEGY

Washington, Aug. 14.—The state department made public last night the telegram which Kaiser Wilhelm of Germany sent to President Wilson through Ambassador Gerard, relative to the violation of Belgian neutrality and other incidents which developed at the beginning of the war. The publication of the letter was by way of answer to a news story from Berlin that the semi-official Norddeutsche Allgemeine Zeitung had declared that such a telegram did not exist. The telegram was dated Aug. 14, 1914, and was in the emperor's own writing. In it appears the statement: "Belgian neutrality, which had to be violated by Germany on strategical grounds." The letter follows:

"Berlin, Via Copenhagen.
Dated Aug. 14, 1914.
Received Aug. 15, 7:30 P. M.
Secretary of State, Washington.
Aug. 14, 3 p.m."

The following was communicated to me personally by the emperor in writing:

"Private and confidential.

"For the president personally.

"One—The royal highness Prince Henry, was received by his majesty, King George V, in London, who empowered him to transmit to me verbally that England would remain neutral if war broke out on the continent involving Germany and France, Austria and Russia. This message was telegraphed to me by my brother from London, after his conversation with his majesty, the king, and repeated verbally on the 29th of July.

"Two—My ambassador in London transmitted a message from Sir Edward Grey to Berlin, saying that only in case France was likely to be crushed England would interfere.

"Three—on the 30th my ambassador in London reported that Sir Edward Grey, in the course of a private (sic) conversation told him that if the conflict remained localized between Russia—not Serbia and Austria—England would not move, but if we mixed in the fray, she would take quick decisions and grave maneuvers; in other words, if I left my ally Austria in the lurch to fight alone, England would not touch me.

"Four—This communication being directly counter to the king's message to me, I telephoned to his majesty on the 29th or 30th, thanking him for his kind message through my brother and begging him to use all his power to keep France and Russia, his allies, from making any warlike preparations.

Today's Beauty Hint

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of canthox, which can be obtained from any druggist, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather, so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.—Advertisement.

GÉRARD.
The department gave out the message as it was received by cable. Its language differs only slightly from the original autograph text, though the emperor's spelling has been corrected in several instances. In the paragraph numbered three, "Grave maneuvers," is "grave measures" in the original; in paragraph four, where "to repudiate taking any provocative military measures" occurs, the original read "to refrain from taking," etc.; and in paragraph six the emperor wrote "employ my troops elsewhere," instead of "my forces."

BERLIN DENIES STORY.

Berlin, Aug. 14.—(Via Amsterdam).—The semi-official Norddeutsche Allgemeine Zeitung denies the existence of the telegram alleged by James W. Gerard, the former American ambassador at Berlin, to have been sent by Emperor William to President Wilson in August, 1914, and mentioned in the memoirs of James W. Gerard, the former American ambassador at Berlin. The Gazette publishes the text of the emperor's telegram as given to the public by Mr. Gerard.

the emperor wrote a memorandum for the ambassador so that he might not announce anything to Washington that would be incorrect. In that case it would be a matter of record destined to assist Mr. Gerard's memory, but it would not be a communication from the emperor to President Wilson."

The Cologne Gazette says there is no apparent reason to doubt the genuineness of the emperor's telegram as published by Mr. Gerard. The newspaper says it cannot see how its contents can serve as fresh proof of Germany's guilt, as it only gives new evidence of the cunning and ambiguous policy followed by Great Britain in the days prior to the outbreak of the war.

The newspaper further sees in the Gerard revelations another move in a plan to exploit the Stockholm conference in favor of the entente by putting the question of responsibility for the outbreak of the war and then pressing the Socialists into the position of being accused parties.

The Neuste Nachrichten of Munich, Bavaria, says it does not matter whether the emperor's message to Wilson is authentic, as it only proves the emperor's love of peace. But quite another thing, the newspaper says, is the use the entente press and telegraphic agencies are making of Mr. Gerard's book, "as it is great effort made again to represent Germany as being responsible for the war."

The Neuste Nachrichten complains that the entente has been given a four day start with its foreign press, while the Berlin government now promises a belated explanation and adds:

"Our diplomacy in the days of the telephone always seems to work at the pace of the mail coach."

The Lokal-Anzeiger, commenting on the publication of the alleged telegram says:

"Mr. Gerard's comments on this alleged telegram of the emperor attempt to prove that no greater misfortune could have happened to the world, including the new world, than England's nonparticipation in the war. It is futile to argue against such stupidity. The very imperial document which Mr. Gerard publishes proves conclusively what influence worked with might and main in July, 1914, to prevent war."

GERMANY TO EXPLAIN.
Copenhagen, Aug. 14.—The Copenhagen, Aug. 14.—The Copenhagen Gazette says that the German government will issue soon an explanation of the telegram said to have been sent by Emperor William to President Wilson in August, 1914, and mentioned in the memoirs of James W. Gerard, the former American ambassador at Berlin. The Gazette publishes the text of the emperor's telegram as given to the public by Mr. Gerard.

The Old Harry is popularly cou-

to be about the most active and industrious person there is, but it is reported that he is seeking a chance to take private lessons from the man who runs the German spy and plotter system in this country.

The plotters and spies can't directly delay the movement of our troops, but they can always find some Congressman at Washington who will talk and talk and hold up everything.

When the news indicates continued war, Wall street gets scared and puts down stocks, and when the news indicates peace, Wall street also gets scared and puts down stocks.

The boys are supposed to like camping out because of out door sports, but perhaps the fact that Mother isn't on hand to keep them clean has as much to do with it.

Around the curystone you can always hear a lot of the loafers wondering why it is that the farmers can't get help enough to harvest their crops.

The Germans make fun of our wooden sword, but our wood is going to build a lot of ships to make up for those the German submarines sink.

The boys are practically willing to comply with the government request for a wheatless week, provided fruit cake can be substituted.

Night shirts are more practical gifts to the soldier boys than knitted socks, but the girls don't look so graceful doing them.

All that is asked of the Russian men is that they shall fight as well as the Russian women do.

This done, it is easy to secure evidence. Once a man gets the searching habit, he keeps it up. He is not content with any beggarly, 25 mile-an-hour, but with a whoop he opens his throttle, regardless of obstructions to view and other traffic. Fines do not influence him. Juries are too good natured to jail him. Let him lose his right to drive a car for a year or two, and he will take notice and others like him also.

AMERICA'S ADVANCE GUARD

(London Times.)

A new and perhaps the greatest epoch in the world's history was opened at Liverpool on Friday last, when Major General Pershing came down the gangway from the steamer "Baltic." Some century and a half ago crass obstinacy and the most unwise counsellors of a well-meaning monarch created the most serious family breach on record.

Englishmen, who had fought side by side against Spaniards, Frenchmen and Red Indians, and could never have agreed upon the balance of their mutual indebtedness, were forced asunder by the Prussian policy of Lord North and George III. England then lost the brightest jewel in her crown, in the only serious war she ever lost—and lost mainly because all Englishmen knew in their souls that they were engaged in an righteous cause. Yet the wounds inflicted then rankled on both sides of the Atlantic. The brothers had been estranged and were too proud in truth too jealous, ever to kiss and be friends again.

Prussianism parted us, and no Prussianism was needed to reconcile us. We were separated by a hateful thing, of which we were ashamed at the time, but which we have only now realized in its true aspect. Americans who saw it in a truer light 140 years ago were yet prone to look for it in its role English reversion rather than its essential Germanic habitat. They have at last found their bearings, and General Pershing, who admits the gratification he feels as the standard-bearer of America's entry into the common cause of civilization, may, say doubtless will, live to voice a greater and worthier pride in that he has been the herald of the greatest and noblest family reunion from which the world has ever benefited.

THE BETTER METHOD.

(Cleveland Plain Dealer.)

One way for a government to care for soldiers wounded or invalided by war, and for the dependents of those who fought and lost their lives, is represented by the civil war pension system. Another way is represented by a bill introduced in both houses of congress yesterday.

This measure which has the approval of the administration proposes a scientific plan for compensating and indemnifying those who will be forced to bear the heaviest burdens of the present war—men crippled or otherwise disabled and the dependents of soldiers who will be deprived of their support through the casualties of service. It has been carefully thought out, with all the unsatisfactory aspects of the old pension plan in mind, and looks like an enlightened effort to prepare for a situation rather than waiting to end with one after it has developed all its menacing aspects.

The subject is one that may well appeal to the humanitarian instincts of the men in congress. Here is a measure of justice to those now being drafted for service.

ANNUAL EXPENSE.

(Ohio State Journal.)

Before the war the total expenditures of the United States were between \$700,000,000 and \$800,000,000. This year they will reach \$1,000,000,000. If the war keeps up at that rate three or four years, where will we land? There is no telling, but it is certain we will raise the money somewhere. If it takes all we got, it has got to go. We must make up our minds to that effect. There is a hopeful side to this dark anticipation, and it is this, we can stand longer than Germany can, and that we will still be eating when Germany will be trying to get something to eat. After all, the battlefield is here, where the problem of the food supply is to be solved.

Liquor Traffic and War.

In one respect the prospective law effects a revolutionary change in American affairs. Under its terms after thirty days from its approval no foods, fruits, food materials or feeds shall be used in the production of distilled spirits for beverage purposes during the period of the war.

Practical Suggestions.

It is reported that the United States will not insist upon Germany giving up Alsace as that does not belong to the great purpose of the war as this country sees it. We wonder why the allies do not define what does not belong to their purpose, so as to widen the grounds of peace as much as possible. For instance, would it be insisted with the object of the allies to concede to Germany a good ocean port and the freedom of the seas in consideration of yielding military autocracy, agreeing to general disarmament and submitting all future disagreements to an international tribunal? Such a position would include all that the war is urged for.—Ohio State Journal.

CANADA HAS FOOD CONTROL

(Buffalo Express.)

All that was needed to give Canada a food controller and to clothe him with proper powers was to pass an order in council under that awesome and versatile legislation, the war measures act. Canada was a longer time finding the man for the job than it was getting the law for food control. So the matter of food control is further advanced across the border than it is here, although Controller W. J. Hanna has been hampered somewhat by congress' delay in passing our law, since the Canadian and United States controllers necessarily must act together to a large extent.

What already has been done in Canada, however, is interesting, inasmuch as the same steps may be taken on this side of the border soon. Salt water fish is about to be placed on the interior city markets at prices to the consumer less than have been charged heretofore. That is the first definite move.

The second step is more important. It consists of regulations for restricting the use of beef, bacon and wheat bread in public eating places and for prohibiting the use of wheat in the distillation or manufacture of alcohol. The serving of beef and bacon is prohibited on Tuesdays and Fridays and at more than one meal on other days. Substitutes such as corn bread, oat cakes, potatoes, etc., must be provided at every meal at which white bread is not served. A public eating place, as defined by the order in council, is any place where twenty-five or more meals are served each day to others than members of the household of the owner.

Such regulations as these are not going to work hardship on anybody. In fact, they will make far better health if adhered to, since most of us eat too much meat.

The harvesting of the crops in Canada is a serious problem which the food controller is attempting to deal with, aided by the dominion and provincial government departments which usually attend to that work. Because the country already has been drained by the war of a large percentage of its men, the problem is even more serious than on this side of the border. Appeals have been sent broadcast for labor. Manufacturers are asked to release men for temporary work on the farm and well-to-do city men have been asked to give up their work temporarily to aid the farmer, or to spend their vacations on the farm. The response has not been as good as was hoped, but every little helps.

Chances in the East.

If the British offensive in Flanders fails it will demonstrate the impregnability of the German line and the futility, without great sacrifice, of further frontal attacks.

On the eastern front there is hope of flankin American fighters would be at their best. Political encouragement of such movement would find strong support in the army which has its eyes today fixed more upon Russia and upon the Balkans than upon the western front, as the vital spot against which to launch America's might in the big drive to end the war.—Boston Transcript.

COUNTY SCHOOLS SHAKEN UP; NEW DISTRICTS FORMED

The first problem to confront the new County School Superintendent, N. D. O. Wilson, who took office August 1, was the redistricting of the county owing to the withdrawal of Harrison township as an exempted district. The law requires the employment of 30 teachers in a district before a superintendent can be employed and with the withdrawal of Harrison township, which is permissible according to the law, the number of teachers employed were below the requirement and J. S. Mason, as superintendent of District 3, was forced out.

The board meeting was held Saturday in the county superintendent's office and a number of matters of importance were before the meeting. Reed Johnson, who has been superintendent of the high school at Brownsburg, was elected as new superintendent of that district. There will be another vacancy to fill as E. T. Baum at Elba has tendered his resignation as district superintendent and a number of applicants are out after the job, some of whom are said to have formerly held offices in the county school examiner.

In the redistricting the following apportionment was made: McKean township and the north half of Granville township were given to Supt. Smith of Utica. The south half of Granville township and Union township were assigned to Supt. Zwayer of Newark. Bennington township has been assigned to Supt. Brown of Johnston.

In place of five districts the county now has four, but the exempted schools will remain under county supervision.

The second day of the County Teachers Institute in session at the high school, saw the introduction of Mr. Wilson as the new superintendent. It was the first opportunity for many of the teachers to meet the new head who opened the exercises and conducted the devotional services. Following these Mr. Wilson briefly addressed the teachers, commending upon their great responsibilities and congratulating them upon their present opportunities. He especially urged that constructive criticism be utilized in all school work.

Mrs. Bertha Edmonds followed Mr. Wilson discussing reading by the word method, and explaining the tracing of the history of the method and giving examples and benefits of such teaching.

O. T. Courson was the third speaker and his address was followed by adjournment. Mr. Courson talked on the relation of the superintendent to the teachers, emphasizing the need of organization and the danger of being overorganized. He pleaded for sympathetic loyalty between superintendent and teachers.

He also deplored the fact that many teachers adhere too closely to routine and pre-arranged course of study.

The same speaker appeared before the institute this afternoon. Just before adjournment the announcement was made that two members of the county organization were in service for their country, and a committee was appointed to write them an expression of kindly feeling on the part of the institute. Those on the committee are: Chairman, Miss Martha Turner of Utica, Charles Mauger of Elba, Robert Koontz of St. Louis, and Mrs. Rose Sharrif of Newark.

BABY DE SAULLES VISITS HIS MOTHER

Little Jack de Saulles.

Little Jack de Saulles, the innocent cause of the recent Long Island tragedy, has lately visited his mother for the first time since her imprisonment.

The relatives of the boy's father have agreed that the mother be permitted to see the child at intervals.

Every Day Etiquette

"Should a gentleman in an elevator in either a hotel or office building remove his hat if there are ladies present?" inquired Harry.

"When an elevator is not crowded and there is only one man in it and several ladies he would naturally remove his hat, and it is considered the proper thing to do. However, most public elevators are so crowded with both men and women that it is impossible almost for a man to remove his hat," was his father's advice.

ARMENIANS SUFFER HORRORS AT HANDS OF TEUTON HORDES

Bombay, July 2. (By Mail).—The following statement given to The Associated Press by a British officer now in a hospital here presents a vivid picture of the sufferings undergone by the Armenians, of whom comparatively little first hand information has hitherto been forthcoming:

"Before I got my wound in the fighting up beyond Bagdad I came into contact on several occasions with a highly educated Armenian who had escaped from the Turks and was being employed by us as an interpreter. The story he told of the inhumanities inflicted upon his compatriots was so appalling that I made notes of his conversations and have attempted here to reproduce them in something like his own language, so that you can get at the heart of the man and realize what he and all educated Armenians feel.

"The interpreter's story follows: 'What you have read and heard about Armenia is not a hundredth part of the truth. Dante's Inferno was a heaven compared with the hell that the Turks have made of my country.'

"At Aleppo there are four factories in which, under the supervision of deported Armenians, 2,000 Armenian women are being employed under terrible conditions. The women are all deportees. One of them said to me, 'On a halt during our deportations, I saw a gendarme bury a sick woman alive. Cold blooded murder was an every day occurrence. Our guards had orders to kill on the spot any one who lagged behind on the journey. Often several were killed at once and there was no separate grave for them—the bodies were just thrown into a ditch together and covered. It was all horrible to behold, but our eyes eventually became hardened to the sight.'

"Baba, Messgueme and Zor are three places never to be forgotten by us Armenians. I have visited them. They are generally of a low type and not far behind the Turks in their disregard for the rights of our people.

"Their cruelty is a little different from that of the Turk, but the difference is only one of kind. The Turk, for example, often respects certain things which we have learned to associate with our religious or racial belief; the German has no respect for anything, nothing is too sacred for his profane hands."

"One day I walked from a place where thousands of innocent men, girls and children were suffering nameless miseries. I walked away because I could not bear any more to gaze upon them, and I came to a hill where I saw a little child. I was in Turkish uniform. The child came near me and cried in Turkish: 'Give me for God's sake a piece of bread. For five days I have eaten nothing but this.' He pointed to some melon skin that had been left lying on the road. I answered him in Armenian and the poor boy jumped into my arms, saying: 'Art Thou Armenian?' He remained there a minute uttering other words. But I felt warm tears falling down my cheek.

"The waters of the Euphrates, the sands of the deserts of Mesopotamia are the graves of the whole Armenian nation. I no longer weep. My tears have frozen in my eyes."

"Measure the apples.

"Wash and slice into small pieces. Add 4 gallons of water for each bushel of apples.

"Boil until fruit is soft.

"Rub through a screen or sieve.

"To the pulp from each bushel of apples add 2 gallons of concentrated cider.

"Bring to a boil.

"Add 12 pounds of sugar.

"Cook until proper consistency.

"Add pieces, cinnamon, and cloves to taste.

"When butter is as thick as desired pour it at once into hot jars and seal immediately.

"Don't miss a step."

AUDITORIUM.

The Cook of Canyon Camp. Large crowds yesterday attended the Auditorium theatre, thus being bargain week, when every showtime, two or three times a day, was filled. Yesterday the company with George Beban in "The Cook of Canyon Camp" Theda Bata in "The Tiger Woman" and Pathé News were seen. Today Mr. Beban will be seen again and added attraction is Gladys Brockwell in "Her Great Temptation." George Beban of course is the real feature and in "The Cook of Canyon Camp" he perhaps has the greatest character he has yet portayed, a cook and it is said, no whit glover. He is a real character, Edna Ever flipped a flapjack with more dexterous cunning than that which Mr. Beban displays in this picture. Helen Jerome Eddy, who has been identified with Mr. Beban is in some of his other pictures and has won many admirers. The character actress plays opposite to the star Monroe Salisbury, another actor who is seen to advantage. Last screening tonight.

What Money Can Buy.

Tomorrow Jack Pickford, Louis Buff and Theodore Roberts are seen at the Auditorium in George Broadhurst's popular play "What Money Can Buy." The story concerns the vulgar, profligate Marzia and is as follows.

The picnic of the Methodist Sunday school at Hebron, which was to have been held at Buckeye Lake, has been postponed until August 21.

The fourteenth annual Mast-Mayer reunion will be held at Mound-builders Park, Thursday, Aug. 23rd. All members are urged to attend.

NEVER TOO LATE.
It is never too late to repair the old shoes, but you might save a little by having the soles repaired or new ones put on before they become too bad. The price of leather has advanced like everything else, but today it is not necessary to use leather for we can furnish you soles and heels of Neolin or Vulter that will wear you better than leather and won't cost you as much in the long run, for they will make your old shoes wear you two or three times longer. Then you will find walking much easier, too. Bring in your old shoes and let Wm. Fishbaugh & Son make them like new. 14-1t

LIBERTY BONDS WON BY NEWARK MEN IN MILEAGE CONTEST

Two well known men, Dick Curry and Leonard Essman, are the proud possessors of Liberty Bonds, presented to them by the Maxwell Motor company.

At the time of Uncle Sam's plea for subscriptions for the Bond issue the Maxwell company, like many other corporations, did its "bit" by subscribing for \$50,000 worth of bonds.

A few weeks later, agents of the company all over the country were notified that a Bond would be given, at a specified time, to all owners of Maxwell cars who made 35 miles an hour or over on one gallon of "gas."

On July 7 word was passed from the main office to representatives to take their trial tests for the Liberty Bonds. Two were given to Roy C. Baird of West Main street for distribution.

The trip was from Newark to Johnstown and back. There were about twenty-five Maxwells entered with the result that Curry and Essman got more mileage out of a gallon than the rest of the entrants and were given the Liberty Bonds.

Curry averaged 36.5 miles to the gallon and Essman 35. Of the 25 all except three made over 28 miles to the gallon.

COLUMBUS YOUTH GETS PENNSY R. R. SCHOLARSHIP

John Morrow Daniels, 20, of Freeport, Pa., and Eugene F. Dawson, 21, of Columbus, O., have been awarded the Frank Thomson scholarships for 1917. Announcement of the names of the successful applicants was made today by the general manager of the Pennsylvania Railroad system, lines east and west of Pittsburgh.

There were 16 applicants for the scholarships, including nine from the lines east of Pittsburgh, and seven from the lines west of Pittsburgh.

Dawson is 21 years old, and is a graduate of the North High school, Columbus, O. He intends to enter the engineering department of Ohio State University. He is the son of William E. Dawson, passenger car builder, Pennsylvania Lines' shops, Columbus, O.

The Frank Thomson scholarships were established in 1907 by the children of the late Frank Thomson, formerly president of the Pennsylvania Railroad, as a memorial to their father.

JACKSONTOWN GRANGE TEAM DRILLS AT PICNIC

The Jacksontown Grange drill team has been invited to give an exhibition drill at the Perry County Grangers picnic to be held today in Frank's Grove three miles south of Thorntown. They won first prize at the Merchants and Farmers picnic. The members of the team who will drill today are Mr. and Mrs. Clyde Folk, Mr. and Mrs. W. H. Orr, Mr. and Mrs. T. C. Jury, Mr. and Mrs. Frank Wince, Mr. and Mrs. M. C. Marter, Mr. and Mrs. Frank Diltoe, Mrs. Chas. Frymire, Mrs. Earl Norman, John Orr, John Vanatti and A. M. Arnold, captain of the team.

Etiquette.

Originally the word etiquette meant a ticket, label or slip of paper attached to a bag or object to indicate its contents. It then came to be used of a ticket given to a person taking part in a ceremony to tell him what he should do; hence the modern meaning.

CHANCE FOR SOMEONE IN NEWARK TO SEND AMBULANCE DRIVER TO THE FRENCH FRONT

Announcement was made this morning of the tentative enlistment of a Newark young man for duty with the American Field Service in France. Application for enlistment was made to E. I. Cordiner and W. K. Verney, field service men, who have been here conducting the tag day for funds and seeking enlistments. The applicant was accepted on condition that he locate some one who would finance the trip. The applicant told Messrs. Cordiner and Verney that he was financially unable to pay the expenses of the trip but wanted to go. He is of draft age but prefers the field service because it means quick action instead of several months of training before he can be of any service in the fight to make the world safe for democracy.

The amount of money needed to finance such a trip is approximately \$350. The sum pays transportation to France and return and equips the recruit for service at the front. His maintenance while in the service is looked after by the French Government. The volunteers serve without compensation, merely for board and lodgings.

No branch of the allied forces has rendered greater service than the volunteers in the American Field Service. When France was overwhelmed with advancing Hunns, Americans in Paris gave their cars and volunteered to drive them, to aid in saving the lives of the wounded. From a group of 11 cars and drivers, the service has grown until there are over 1,000 cars in the service now, all paid for by American subscriptions and driven by American volunteers. This is the work the Newark young man wants to participate in.

Some Newark man or woman, un-

able to serve in any active branch of the nation's fighting forces, has the opportunity to render a service to all the allies and to suffering humanity by providing the money to send this Newark youth to France. Messrs. Verney and Cordiner at Hotel Sherwood can give further information.

The Newark boy offers his services free and risks his life. Whoever finances the trip risks nothing, but takes a prominent part in a work which has been lauded by the French government and blessed by the tears of the soldiers in the trenches.

BOSTON WOMAN PICKS NEWARK BOY FOR HONOR

Belford Atkinson, son of Rev. and Mrs. J. W. Atkinson, of Neal avenue, who sailed for France a week ago Saturday was selected from a group of seven to enter the American Field Service.

Atkinson was a junior at Ohio Wesleyan University and sought to enter the American Field Service. Not understanding that the entire expense must be borne by the applicant, he applied and was accepted, and then wrote explaining that he was not able to present the sum required. The headquarters replied asking for his photograph stating that a well to do woman in Boston desired to finance a trip, and would like to consider him. He was selected by her from a group of seven.

While at New York enroute, he visited her in her Boston home, was entertained during the afternoon and completely equipped for the expedition.

6,000 MEN RUSHING
WORK ON BARRACKS
AT CAMP SHERMAN

Chiillicothe, O., Aug. 14.—(Special)—Camp Sherman, cantonment for the Ohio and West Virginia draft army, is now 50 per cent completed. A force of 6,000 men are working day and night in order that the cantonment will be ready for the reception of the 30,000 troops at the contemplated time, September first.

The camp site is a most picturesque one. The level land is bounded on the east and west by historic hills, the most eminent being Mount Logan, which is represented on the seal of Ohio.

Every precaution is being taken against unsanitary conditions. The natural drainage of the land is good.

There will be thirty-five miles of sewer pipes. Work is now being

reached on one of the largest sewage disposal plants in the country.

Six hundred yards of excavation were necessary for this.

The septic plant will be 63 by 127 feet and will be divided into ten compartments.

The walls will be about ten feet high, thirteen inches thick and of reinforced concrete.

The water wells will be of the most modern kind and pure drinking water will be an assurance.

The barracks will be two-story structures. They will all be electrically lighted. The officers' quarters will be only one storied. Although nothing definite has been decided, a local stock company will be organized to construct portable cottages for the married officers and their families.

There will be nine Y. M. C. A. buildings. These will be run on regular army plan. They will have libraries, billiard rooms and picture shows.

At present temporary Y. M. C. A. work is being conducted for the benefit of the seven companies stationed here for guard and other duties.

Besides the recreation which will be afforded at the camp, plans are being made by the citizens along this line.

Every possible means will be used to entertain the soldiers and their visitors.

From now on the daily percentage of increase in construction will average three per cent.

The work will not be impeded by lack of material,

as there are fifty carloads coming in daily.

Most of this is lumber and sewer material. All excavating is done by huge trench diggers, which are duplicates of those used in the war.

The carpenter force consists of four thousand men. A barracks building is completed in two days' work.

Work has been started on the hospital unit. An expenditure of \$1,000,000 has been issued for this.

The ten store houses are being rushed so as to be ready for the supplies which will start coming in the fifteenth of this month.

It is remarkable to note that there has not been one fatality during the time of construction.

The many minor injuries received by the workmen are treated at an emergency hospital. Sickness is treated at a general hospital which is equipped in first-class style.

Eating and sleeping is provided for those workmen who desire to stay on the grounds.

There are two commissaries for the workmen and one for the office force.

Three thousand pounds of meat, 2,500 pounds of bread and 2,000 pounds of sugar are necessary daily for the feeding of the men.

The meals are served at a cost of 27 cents.

The narrow margin of profit is put in a fund to pay for the utensils and other miscellaneous expenses.

The pay roll last week amounted to \$156,000.

The German Maennerchor met last evening in the Vogelmeier Hall on South Fourth street, honoring a former resident of the city and a charter member of the society.

George Feyerabend, of Albany, Al-

and who also assisted in the organiza-

tion of Roland K. of P. lodge of this city.

Mr. Feyerabend joined the

German society in 1887, and has kept
